

HOW MANY COUSINS

Directions: Answer the questions about the line plot.

1. Tara asked her classmates how many cousins they have. She made this line plot to show her data:

1. How many cousins do the most students in Tara's class have? _____
2. How many classmates did Tara survey? _____
3. How many students have 8 or more cousins? _____
4. What else can you learn about Tara's classmates from her line plot?
